1.0 INTRODUCTION TO APU

1.1 APU - General Background Information

APU is geared to provide the highest quality education. This is aimed at meeting the critical shortage of Computing, Technology, Business, Accounting, Banking and Finance, Media and Engineering specialists and managers at all levels. The University will tailor student skills to the needs of commerce and industry and equip them with the relevant competencies for career development and also for study at graduate and postgraduate levels.

The teaching and learning styles employed at APU are characterised by a strong emphasis on knowledge and on the understanding and evaluation of theory, and their application within a practical framework. APU's students are expected to be self-reliant, capable of individual and independent thinking, and to possess the ability to work with others and in a team. Particular care is taken to ensure that learning experiences in APU Programmes are structured for the employment market, using for instance, examples based on industrial or commercial practice.

In the 21st century, APU is a major centre for Education and Training. The University is positioned to contribute to Malaysia's development as a regional training hub of excellence by creating a teaching and learning environment which is also suited for high-technology research and development.

1.3 Programmes Offered by APU

APU offers a complete suite of high quality programmes in Engineering, Technology, Information Technology and Computing, Media and Entertainment, Accounting & Finance, Banking, Business & Marketing Management and Psychology. These Programmes range from specialised programmes for diploma and degree programmes to Master's programmes and PhDs. A complete range of these Programmes can be viewed from APU website at www.apu.edu.my .

1.4 Location

The prestigious site located in Technology Park Malaysia, Bukit Jalil, Kuala Lumpur reinforces APU's position as a leading provider of Information Technology (IT) and Technology education in South East Asia.

2.0 PROFESSIONALISM

APU is a professional establishment and from the moment of entry to the University, you will be treated like a professional. Education by itself, cannot guarantee a job. APU therefore seeks to instil, in addition to the development of skills and knowledge, the strong sense of professionalism that will stand you in good stead in your future career. Individuals who wish to pursue a successful career are expected to display and practice a high level of professional and interpersonal skills.

2.1 Attire

Attire must be compatible with the public image of APU. The University's aim is to prepare all students for the professional job market. Although there is no uniform dress, all students are expected to dress sensibly and discreetly while at the same time ensuring their own comfort and convenience (please refer to the last page for the link to Professional Code of Conduct for details).

2.2 Attendance and Punctuality

Being present at all lectures, tutorials and practical classes are a pre-requisite of a successful student. Punctuality constitutes a very important part of the educational process

Attendance is required at all teaching sessions for the modules enrolled. Sessions include all tutor-led activities such as lectures, seminars, tutorials and presentations. "Sessions" should not be interpreted as "weeks". For small group sessions (sessions which involve a sub-set of the whole module cohort), students must attend the sessions to which you have been assigned. All students must achieve a minimum of eighty percent (80%) attendance for each module, failing which the student may be denied assessment for that particular module.

If a student is absent from a module(s) or programme of study on four consecutive occasions in a semester, including lectures, tutorials, seminars and laboratory based classes for reason other than personal illness and/or without written approval, the student may be deemed to have withdrawn from the module(s) or programme of study and his/her registration for that module(s) or programme of studies will be cancelled. The student may be excluded from further teaching, denied access to examinations and refused the opportunity to submit assessment for the module or award. Thereafter the student will need to seek permission to start again on the same module (or a replacement where applicable). This may affect the student's eligibility to progress to the next level of the programme award.

2.3 Academic and Disciplinary Records

Self-discipline and the ability to follow regulations and instructions are essential ingredients in professional training. Your ability to adapt and thrive in actual working environment will not only be reflected by the grades received and also by your self-discipline during the course.

3.0 QUALITY OF LEARNING

APU has successfully adopted a quality management system based on the ISO9000 Series of Quality Systems Standards (ISO 9001:2015). Your input to the quality system is critically important as it will assist APU in identifying opportunities to improve its operations and service to you and your fellow students. An Online Feedback Form is available at <https://feedback.sites.apiit.edu.my/>. You will receive a response to your feedback within seven days of submission.

3.1 Learning Environment

You can expect our quality process to:

- moderate the summative assessments of all students to ensure fairness, consistency and conformance to standards.
- work with APU to provide you with up to date Programmes, effective learning and appropriate learning resources.

- attend timetabled classes, hand in work on time and notify your lecturer(s) if for any reason you are not able to keep up your attendance;

- spend sufficient time in the preparation and completion of assignments to do justice to your ability;
- make appropriate use of the facilities provided, within the published regulations and guidelines.

You will be able to access the Online Survey System at: <https://apSPACE.apu.edu.my/student-survey>. Students who do not complete their survey by the stipulated date indicated on their examination schedule (posted on APSPACE) may have their results withheld until they complete their course appraisal.

3.3 Class Mentor Scheme

While a lot of emphasis is placed on providing you with subject related skills, your development as a professional is also considered to be a crucial element of your education at APU. The class mentor will also function as your link with APU's management. APU encourages you to develop a close relationship with your mentor and to keep him/her informed of any particular concerns or circumstances, personal or professional that may affect your studies.
